

Community Seminar

21th April, 7pm

The Gap State High School Library

Starting to grow your own vegetables in The Gap

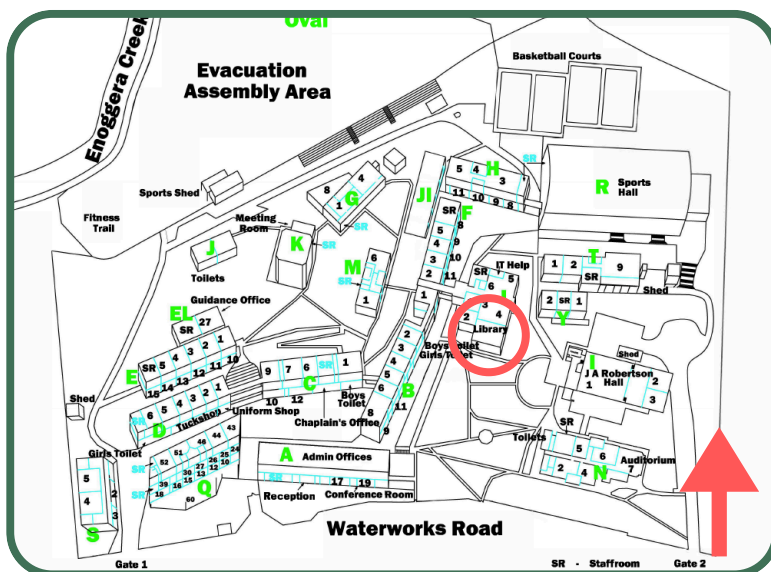

Join us this month to hear tips and tricks on how to start a vegetable garden. Hear from experienced gardeners on how they started out, and how you can garden successfully while avoiding herbicide and pesticide use.

Everyone welcome!

If you are interested in improve your sustainable food independence, please join us. For more information, check our website: www.thegapsustainability.org

Our meetings are held at The Gap State High School Library. See on the map in red the location of the library and best parking.
